REPORT OF THE DISTRICT SUPERINTENDENT OF SCHOOLS

To the Citizens of Hubbardton:

In the short time I have been in your midst and have had time to become acquainted with your school system, I wish to commend the organization in which I found it. It speaks well for my predecessor and your town officers. It will be my task to do as well by you.

In the past, Mr. Miner has mentioned the need of new text books. I do find this a definite need. Some of the texts are quite old and some are even out of print. There are several several new reading systems that are not only interesting to the pupils but they closely tie in the phases of phonics, phrase reading, word building power, expression and comprehension in the reading program. Arithmetic, geography, English and music books are also needed. Perhaps all cannot be procured at once but a start should be made.

Due to war shortages, play equipment and repairs have not always been kept up. I believe opportunities should come now to keep up on the repairs. The Turnpike school needs one if not two coats of paint. The Bradley school should have two toilets built with separate walkways connecting the school and toilets. The Parsons school needs considerable attention. The hallway and doorstep need repairing. The inside should be redecorated. To make the school warmer, weather stripping the window casings would help. This also would help to make the Monument Hill school warmer. I realize these repairs will cost something, but I believe they will cost less if attention is given them frequently. I believe an increase in tax of ten to fifteen cents will be money well spent for the upkeep of your schools.

The following is the attendance record for the school year 1944-1945:

School Teacher	Gross Enroll.	Avg. Daily Attend.	Absences	Tardiness	Attendance
Bradley Julia Naramore	24	18.9	279.5	11	92.1

Monument Hill					
Julia Allard	21	19.9	94	26	97.6
Parsons					
Kathryn Hanley	10	8.5	154.5	48	90.4
Turnpike					
Berenice Gibbs	15	10.5	87.5	14	95.3

The eighth grade graduates were Wayne Bishop and Dorothy Peltier.

I appreciate the opportunity given me in working in your community and hope that my work here will be beneficial to your schools.

Respectfully submitted,

IRWIN H. HOXIE.
